RE: Confirmation of Input Compliance

Trading Name: River Stone Aquaculture Innovations Pty Ltd
ACO Certification No: 13128

This letter is to confirm that the following products have been assessed based on the information supplied and were found to be compliant with the requirements of the USDA National Organic Program (NOP), Canadian Organic Regime (CAN/CGSB-32.311-2020 and CAN/CGSB-32.310-2020), JAS (MAFF Notification No. 1605), and EU (EC) 889 / 2008 for use in certified organic production systems, with any restrictions indicated.

| Product | Notes: |
|------------|---|
| Swift Grow | <p>COR: Biologically processed fish manure. No usage restrictions if verified pathogen-free (e.g. by accompanying government-issued certificate for freedom of pathogenic organisms).</p> <p>JAS: Chemically untreated, no usage restrictions.</p> <p>EU: Application of all fertilisers containing manures and excrements are limited to 170 kg of nitrogen per hectare annually.</p> <p>NOP: Must be applied to the soil >90 days before to harvest (if there is no direct contact of the edible portion of a crop and the soil), or >120 days (if there is direct contact). Contains >3% nitrogen, additional requirements of NOP Guidance document 5012 have been met.</p> |

This confirmation of compliance is valid from the date of this letter and will remain current providing no changes to the Allowed Input registration and formulation of this product have been made.

Any changes made to the product formulation must be notified in writing to the ACO Certification Ltd office and subsequent reassessment of compliance will take place.

[For nitrogenous liquid fertilisers intended for NOP compliance]: Approved for use in NOP organic production by ACO.

Yours sincerely,

Michael Holford
Certification Team Leader (Agriculture)
ACO Certification Ltd.
